All figures are based on a standard specification. The choice of wheels and transmission may affect CO₂ emissions and corresponding Road Fund Licence. The indicated values were determined according to the prescribed measurement method – Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. Figures shown are for comparability purposes; only compare with other vans tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish fuel consumption and CO₂ figures can be found at <https://www.mercedes-benz.co.uk/vans/en/WLTP>

Finance options.

Get an agreement that suits you with Mercedes-Benz Finance.

At Mercedes-Benz Finance we have a number of finance options you can choose from to suit your business needs, because we understand the complexities of running a modern-day business...

Agility

A flexible method of financing a vehicle over a fixed term. The agreement defers your decision of whether you purchase, hand back or part-exchange your vehicle until the end of your agreement.

- Fixed regular payments mean you can easily budget
- Payments are based only on a proportion of the van's value, keeping your monthly payments lower
- Our Optional Purchase Payment avoids the risk of unplanned depreciation of your vehicle.

Hire Purchase

A straightforward route to ownership. This is the perfect way to buy a Mercedes-Benz if you want to work your way up to full ownership, spreading the overall cost over a fixed term.

- On completion of the agreement you will own the vehicle
- A flexible deposit and repayment term means you can tailor the financial agreement to suit you
- Monthly payments are not based on annual mileage.

Operating Lease

A solution for those who want to drive one of our vehicles over a fixed term, with lower monthly rentals and without the worries or commitment of ownership.

- Pay an advance rental upfront
- Rentals are based on your annual mileage agreed at the start of your agreement and only on a proportion of the vehicle's value, keeping your monthly payments lower
- Rentals are allowable against taxable profits (proportionally).

Contract Hire

Gives you the ability to enjoy driving a Mercedes-Benz without having to take on full ownership. With Contract Hire, you lease your vehicle for a fixed period and for a fixed monthly rental.

- No need for a large initial deposit
- Repair and Maintenance options are also available
- VAT is reclaimable depending on usage (proportionally).

Finance Lease

Allows your vehicle to appear as an asset on your balance sheet, without the option of ownership as you hire a vehicle for a fixed period.

- Fixed regular payments enable you to easily budget
- The vehicle is an asset on the balance sheet, therefore tax allowances may be deducted from taxable profits
- Payments are not based on annual mileage.
