Please note

This document provides information about the model range line-up and specifications of the eSprinter. It also contains key details about options, economy and performance of variants. Details are correct at time of publication and are subject to revision without notice. Any images used in this document may not reflect UK specification and are for illustrative purposes only. Images may show optional equipment which does not form part of UK standard specification.

The New eSprinter Summary.

RETURN TO START

2 Vehicle types	Panel Van & Chassis
2 Battery sizes	81kWh & 113kWh
2 Motors	100kW & 150kW

1 Charging Configuration	AC: 11kW with DC: 115kW**
2 Vehicle lengths	L2 & L3
2 Trim levels	PRO or SELECT

81/113kWh Panel Van

81/113kWh Chassis

Multi-function steering wheel.

CCS rapid charging port, 115kW max. capacity.

MBUX Navigation and Live Traffic Information.

All-electric WLTP combined range, full charge

161 – 272 miles*

80% charge top-up in just

34-42 minutes*

*81kWh 314 Van L3 – 113kWh 414 Van L3 variant

Electrical WLTP range for the eSprinter 81KWh – 113kWh battery range in miles (km): 161 (259) – 272 (438). Electrical consumption in kWh/100 km: 28.0 – 34.5. Combined CO₂ emissions in g/km: 0. Figures correct as of May 2025. The indicated values were determined according to the prescribed measurement method – Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Battery Electric Vehicles (BEV) require mains electricity for charging, range figures determined with the battery fully charged. Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedure (WLTP). Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP>. For real time data visit https://voc.mercedes-benz.com/voc/gb_en. **Charging times are subject to the power available at the location where the vehicle will be charged as well as external factors such as temperature and type of cable and charger used.

Standard Equipment Highlights.

[RETURN TO START](#)

The Mercedes-Benz eSprinter combines the very best of safety, efficiency and connectivity.
All eSprinter models include:

Active Brake Assist with pedestrian and cyclist detection. The system helps to prevent rear-end collisions. Active Brake Assist can help you to prevent accidents (with vehicles driving in front, with crossing pedestrians or cyclists) or to minimise their consequences.

Attention Assist drowsiness detection. Can help to avoid momentary nodding off and therefore provides you with increased safety, in particular when driving at night and on long journeys. The system provides you with a visual and audible warning if it identifies typical signs of fatigue or attention lapses, and suggests taking a break.

Acoustic Presence Indicator All our electric vehicles come as standard with an external acoustic warning to alert pedestrians or cyclists at speeds under 19 mph.

Crosswind Assist detects strong crosswinds and helps the driver to remain in their lane by autonomous targeted braking intervention.

MBUX Multimedia System with 10.25" Touchscreen The state-of-the-art infotainment system has increased computing power, improved functionality in controlling vehicle functions, greater comfort and better compatibility with mobile devices.

Driving programs Drivers can choose between 3 different driving programs: Maximum range, Economic and Comfort. The programs control engine power, engine torque and climate control.

Reverse Camera the camera assists when parking and manoeuvring: it displays the area behind the vehicle. Damage can be avoided and pedestrians spotted more easily. Dynamic guidelines and a 180° view also facilitate orientation when reversing.

The Mercedes-Benz App services Assists the driver with pre-conditioning, finding a charge point and much more.

Emergency Call System can ensure crucial time savings in an emergency. Using a communication module with its own SIM card, an automatic emergency call is initiated following an accident, thereby potentially reducing the time before the emergency services arrive at the scene. GPS information can be sent if the driver is unresponsive. The emergency call can also be initiated manually in order to request help.

Blind Spot Assist Helps when changing lanes and reversing. If a vehicle is detected, a warning sign in a red triangle appears in the corresponding exterior mirror.

Intelligent Speed Assist Displays the current speed limit in the driver's direct field of vision in the instrument cluster.

Active Lane Keeping Assist protects against unintentional lane departure. If the system's camera detects a lane departure, a corrective steering intervention takes place to guide the vehicle back into the lane. If the driver fails to react and the vehicle crosses the lane markings, an additional haptic warning occurs (pulsed vibration via the steering wheel).

Illustration of Active Lane Keeping Assist.

MBUX – the Mercedes-Benz User Experience infotainment system.

RETURN TO START

The state-of-the-art MBUX technology comes with a high resolution 10.25" touchscreen fitted as standard, offering intuitive touch control and a wealth of features.

With the latest software, all eSprinter-specific settings, such as charging, pre-conditioning or navigation with **Electric Intelligence**, can now be made not only via the instrument cluster, but also via the touchscreen or voice assistant.

Standard features

- High-resolution 10.25-inch touchscreen
- AM/FM radio with dual tuner
- DAB radio
- Bluetooth connectivity with audio streaming
- LINGUATRONIC voice control with optimised, intuitive voice assistant
- Seat-related voice recognition for driver and front passenger³
- Extensive personalization options with up to seven profiles²
- Over-the-air (OTA) updates²
- Wi-Fi hotspot
- Wireless remote UI connection for e.g. Apple CarPlay and Android Auto⁴
- Online music^{1,2}: Tidal, Amazon Music, Spotify
- Multimedia interface with three backlit 18W PPS USB-C ports
- 2-way front speakers
- Volume settings for audio and phone
- Centre-fill speakers for improved sound quality and voice output
- Digital instruction manual

¹ Service Entertainment Package required

² via The Mercedes-Benz App

³ only together with comfort overhead control panel

⁴ Apple CarPlay and Android Auto is only available in conjunction with E4S – Smartphone integration package

The eSprinter PRO model.

RETURN TO START

Standard features for the eSprinter PRO include:

Exterior

- Exterior mirror heated and electr. adjustable
- Steel wheels 6.5 J x 16"
- Rear door step

Interior

- Multifunction steering wheel
- Height and rake adjustable steering wheel
- Instrument cluster with colour display
- Heated seat for driver
- Armrest for driver's seat
- Co-driver's double seat
- Pre-entry climate control
- TEMPAMATIC Air conditioning
- Electrical parking brake
- USB socket, 5 V
- Maturin black fabric

Load area

- Full-length partition
- Double-wing rear doors, opening to side wall
- Wood flooring
- Rear cab wall lining
- Towing eye rear

Technology & Charging

- MBUX multimedia system
- Digital radio (DAB)
- Acoustic package
- Pre-installation: Remote and Navigation Services
- Pre-installation: Remote and Charging Services Premium
- AC charging 11kW /22kW & DC charging 115kW
- 8m charging cable, mode 3 (type 2, 3x32A)
- Smartphone integration package

Safety & Driver Assistance

- Active Brake Assist
- Hill-Start Assist
- Blind Spot Assist
- Crosswind Assist
- Active Lane Keeping Assist
- ATTENTION ASSIST
- Sideguard Assist
- Intelligent Speed Assistant
- Cruise control
- Tyre pressure monitoring front and rear
- Breakdown management
- Reversing camera
- Rain sensor
- Alarm and double locks

Government OZEV grant of up to £5,000

The eSprinter is eligible for a Government OZEV grant that gives businesses 35% off the purchase price, up to a maximum of £5,000*.

Basic recommended list price (ex.VAT) for the 81kWh eSprinter 314 Van L3 PRO

[†] Technical data of the eSprinter in this publication are preliminary values and were determined internally in accordance with the WLTP certification methods. There are currently no confirmed values from TÜV, nor is there an EC type approval or a certificate of conformity with official values. Deviations between this data and the official values are possible. UK range figures may vary and these will be published when available.

Government OZEV grant of up to £5,000

The eSprinter is eligible for a Government OZEV grant that gives businesses 35% off the purchase price, up to a maximum of £5,000*.

* Vehicle purchase price is calculated on base vehicle only (excluding any optional equipment), it excludes delivery charges and first registration fee. The grant will be applied after any vehicle discount has been offered and includes VAT and number plate costs. For more information, visit: <https://www.gov.uk/plug-in-car-van-grants>

This document is for guidance only and must be used in conjunction with a configuration tool prior to final specification decisions and vehicle quotations being prepared and accepted. List prices are quoted ex-factory unless otherwise stated. Delivery charges excluding VAT will be added to model prices quoted in this document. Prices based on standard finish paint choice. Mercedes-Benz Vans UK and authorised Dealers reserve the right to alter specification and vary prices without notice. The availability of options may depend on the chosen base vehicle and other optional equipment specified, and should be confirmed with your Mercedes-Benz Vans Dealer prior to order placement. VAT is calculated at the standard rate of 20%. Mercedes-Benz Vans UK Ltd, Tongwell, Milton Keynes MK15 8BA.

Mercedes-Benz Finance Options.

RETURN TO START

Choose an agreement that suits you with Mercedes-Benz Finance.

At Mercedes-Benz Finance we understand what it takes to run a modern-day business. Because of this, we have a number of finance options ready to suit your business needs.

Agility (Personal Contract Plan)

Agility (Personal Contract Plan) is our most flexible method of financing. You drive the vehicle over a fixed term, with fixed monthly payments. And at the end of the agreement, you decide whether you want to:

- Buy another Mercedes-Benz.
- Purchase your van by paying the Optional Purchase payment (balloon) and Option to Purchase Fee.
- Return it to us.

As a business customer, your vehicle can also appear as an asset on your balance sheet.

[For more information about Agility.](#)

Hire Purchase

A straightforward route to ownership. This product allows you to spread the overall cost of your Mercedes-Benz over a fixed term.

As a business customer, your vehicle can also appear as an asset on your balance sheet.

[For more information on Hire Purchase.](#)

Operating Lease

A solution for those who want to drive one of our vehicles over a specific term, with fixed monthly rentals and without the commitment of ownership of the vehicle.

As a business customer, your vehicle can also appear as an asset on your balance sheet.

[For more information on Operating Lease.](#)

Contract Hire

A solution for those who want to drive one of our vans over a specific term, with fixed monthly rentals and without the need to commit to ownership of the vehicle. This includes the cost of your Vehicle Excise Duty (also known as Road Fund Licence) for the duration of your agreement.

As a business customer, your vehicle can also appear as an asset on your balance sheet.

[For more information on Contract Hire.](#)

Finance Lease

Finance Lease gives you the ability to enjoy driving a Mercedes-Benz Van for a fixed time without the option of ownership. With this option you lease your vehicle for a fixed period and for fixed monthly rentals.

As a limited company or PLC customer, your vehicle can also appear as an asset on your balance sheet.

[For more information on Finance Lease.](#)

Charging Information.

Increasing efficiency and reducing downtime.

- **The eSprinter can be charged by Direct Current (DC) or Alternating Current (AC).**
- AC is usually found at homes and workplaces and more cost effective for charging, however, generally requires longer intervals to fully charge. DC power can rapid-charge an electric vehicle using higher charging powers. For example, the eSprinter can accept 115kW of power.
- AC 7kW: 0-100% in ~12h 30 min†
 - AC 11kW 0-100% in 8h 30 min (Wallbox)†
 - AC 22kW 0-100% in 4h 30 min (Wallbox)†
 - DC 115kW 10-80% in just 34 minutes†.

- **Managing range and battery performance.**
- The eSprinter uses a process called recuperation that recovers energy when the vehicle is decelerating to help recharge the vehicle's battery. There are 5 recuperation modes available, which can be adjusted via the steering-wheel paddles. The greater the recuperation level, the faster you decelerate and therefore, the more energy your vehicle will recover. An automatic mode is also fitted as standard, D AUTO, which uses the radar-sensor to intelligently select the best mode for a given driving situation.
- | | |
|-----|---|
| D- | This mode will enable you to get maximum range from your eSprinter. It has maximum recuperation and fastest deceleration. Due to the deceleration being so strong, your vehicle will automatically activate your brake lights when you lift off the accelerator. |
| D | This mode has less recuperation than D- and has similar deceleration levels to a diesel Sprinter. |
| D+ | This mode has significantly lower recuperation levels and therefore will decelerate at a slower rate than a diesel Sprinter. D+ is a coasting mode, meaning your vehicle will have no recuperation and can 'sail' for example when driving for long periods downhill. |
| D++ | No recuperation and slowest deceleration. |

† Charging times are for the 81kWh eSprinter vans. Charging times are subject to the power available at the location where the vehicle will be charged as well as factors such as temperature, charge point and type of cable used.

^ Mercedes-Benz research analysed 1.6 million journeys anonymously on the EQ Ready app and 96% of all journeys recorded were shorter than 100km (62 miles).

Did you know the average van across the UK and Europe travels less than 62 miles[^] a day?

The indicated values were determined according to the prescribed measurement method – Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Battery Electric Vehicles (BEV) require mains electricity for charging, range figures determined with the battery fully charged. Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedure (WLTP). Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP>. For real time data visit https://voc.mercedes-benz.com/voc/gb_en.

All weights and dimensions quoted are subject to normal manufacturing tolerances of +/- 5%. Stated weight figures in accordance with Directive 97/27/EC in the applicable version at the time of going to print. Stated weight figures are for UK supplied vehicles and include charging cable and all standard equipment. The figures are not based on an individual vehicle and do not constitute part of the product offer; they are provided solely for the purposes of comparison between different vehicle models. The payload figures depend on the optional equipment fitted to the vehicle, please contact your Mercedes-Benz Retail Partner for an individual vehicle calculation. Payload figures include the standard mode3 charging cable (5kg).

Mercedes-Benz Electric Vans and the Environment.

RETURN TO START

A key advantage of any battery electric vehicle (BEV) is it's positive environmental impact, compared to an internal combustion (ICE) vehicle. Mercedes-Benz electric vans produce no tailpipe emissions.

See right for the Energy Efficiency Rating and emission standards compliance.

Ambition 2039

A core element of our sustainable business strategy is Ambition 2039, with which we already set the course in 2019 for a holistic approach to climate protection and air pollution control.

The ambition is to make our entire fleet of new vehicles net carbon-neutral along the entire value chain and over the vehicles' entire life cycle by 2039 – from development to the supplier network, in-house production, electrification of products to renewable energies in the use phase of electric vehicles and recycling of the vehicles to close the loop.

The Mercedes-Benz App on new eSprinter.

RETURN TO START

Monitor your van's status, location and security via your smartphone.

ASSISTANCE & AFTERCARE		FREE
Telediagnosics & Maintenance Management	Receive a notification when wear is detected on diagnostic-capable parts such as brake pads and get advance notice of when a service is due allowing you to plan your workshop visit well in advance to minimise any impact on your business.	
Remote Vehicle Diagnostics	Your Dealer can assess your van's condition remotely allowing them to check if any other repairs are required ahead of a service.	
Accident Recovery & Breakdown Management	Once an emergency call has been resolved or if you request breakdown assistance, further support is offered to help recover your van or to tow it to a Mercedes-Benz Service outlet.	
Software updates	Over-the-air software updates are sent directly to your van's head unit. This means you'll always know your software is up to date and you'll save time by avoiding additional workshop visits.	
VEHICLE SUPERVISION		FREE FOR 3 YEARS
Vehicle Tracker	See your van's location on the map in your app, making it easy to call or message your driver and re-route them to fit in another delivery or pick-up if a quicker route is available. The tracker is factory fitted equipment so it can't be easily removed if stolen.	
Parked Vehicle Locator	If you're within 1 mile of your van's parked location, the app can generate the most convenient walking route – very handy if you're in unfamiliar surroundings and on a busy schedule.	
REMOTE ACCESS		FREE FOR 3 YEARS
Remote Retrieval of Vehicle Status	Use your app to check on charge level, tyre pressure, mileage and trip information. Not only does this help you plan your day's journeys, it can save you admin time on tasks such as logging your mileage for expenses.	
Remote Door Locking & Unlocking	The app allows you to check if your van is locked. If you lock your keys in the van or need to give another driver access, you can do it via the app, from any distance away. For added peace of mind, you'll receive an email notification when your vehicle is unlocked.	
EV SERVICES		FREE
Pre-Entry Climate Control	Climate control can be started remotely when your van is charging so energy used for heating will draw on the mains power to avoid depleting your battery. This means you'll have maximum comfort and battery range.	
Display of Charging Stations & Range on map	The Mercedes-Benz App shows you charging stations in the surrounding area and enables you to set the preferred one as your destination. The range display in your app helps you plan a journey with confidence as it shows if you can reach your destination using your existing battery range.	

Mercedes-Benz Approved Used Electric vans.

Get used to more...

More choice. More confidence. More quality – and more added extras.

As a Mercedes-Benz Approved Used Electric customer, you'll have complete peace of mind as every van offers the same commitment to quality and workmanship as new and comes with:

12-24 month warranty option*

Free MOT test failure cover**
covering you for £1,500

Minimum
3 months MOT

Free 24/7 breakdown cover
and roadside assistance^

Comprehensive
multi-point vehicle check

Discounted
service plans

*Warranty eligible up to 200,000 miles on approved used Mercedes-Benz Vans with less than 150,000 miles at point of sale. For full T&Cs, please speak to your preferred sales representative. ** MOT cover redeemable per 12-months warranty. £1,500 claims limit. The New Mercedes-Benz eSprinter

30

[RETURN TO START](#)

All eSprinter models will include an Integrated Service Package (ISP).

Integrated Service Package (ISP), helps to form an integral part of our commitment that the eSprinter is not only performing well but is safe to operate at all times.

Our ISP consists of four services: two A (minor) and two B (major) services as standard – and can be transferred to a new owner. All of our electric vehicles also come with out of charge cover and an 8year/100,000 miles battery capacity warranty as standard.

Service24: Demand more.

The most comprehensive Aftercare package – for businesses that demand more.

Our 120-strong Dealer network works around the clock to service and maintain your vans and keep your business moving. It all adds up to more value, more flexibility and more confidence that you'll only find at an authorised Mercedes-Benz Dealer.

› Flexible servicing and maintenance

Book your service online or by telephone, and as well as a standard 'drop and go' service with a courtesy van, you'll also get:

- Early bird, late night and weekend slots
- Mobile service
- Overnight service
- Collect & deliver service
- Express 1hr service
- Electric van service.

› Flexible ways to pay and save

With fixed, transparent national pricing there are no surprises with our services and repairs – plus you can fix, spread and reduce your service and maintenance costs, and ease your cashflow at the same time, with a payment plan.

- Pay as You Go
- ServiceCare Maintenance
- ServiceCare Complete.

› 3-year unlimited mileage warranty

Available on every new van, all service and maintenance – and any work required – is covered by your 3-year unlimited mileage warranty, and is only undertaken by Mercedes-Benz trained technicians using Mercedes-Benz GenuineParts.

› 8 year/100,000 mile Battery Capacity Warranty

For peace of mind and reliable performance, the eSprinter's battery comes with an impressive 8 year/100,000 mile battery guarantee.

› Free breakdown cover & roadside assistance*

Every van comes with free Europe-wide breakdown cover – MobiloVan. And with 3 years' cover on new vehicles for driver mishaps, no one goes further to keep your business moving.

- Trained technicians using only Mercedes-Benz GenuineParts
- Out of charge cover for electric vehicles
- Forward travel of load and crew is covered
- Driver mishap cover for the first 3 years, including out of charge cover or empty fuel tanks.
